WORD HARVEST

Learn the farming words!

- transplanting:** The technique of moving a plant from one location to another, we plant baby plants that have already started growing in a greenhouse!
- hoeing:** Digging/weeding using a hoe (a tool with a flat edge).
- harvesting:** Gathering crops from the field. We use a combination of machines and our hands (depending on the plant).
- fertilizer:** On an organic farm, fertilizers are a natural substance added to soil to supply more nutrients for the plants (e.g. compost, organic matter).
- bunch:** A unit a measure typically used for leafy greens and herbs! When harvesting, leaves are grouped together into a "bunch" with an elastic.
- farming:** Our business, the way we grow and produce healthy food for you and your family to eat!
- production:** The production line is where the produce is washed, trimmed, sorted and placed in bags or boxes to be sent to grocery stores!
- fields:** Something Pfenning's has a lot of! This is where the beautiful vegetables are grown and harvested by Pfenning's wonderful employees.
- agriculture:** The practice of farming! People have been growing crops and vegetables for thousands and thousands of years!
- grains:** Cereal crops like wheat and barley.
- tractor:** The equipment we use to help us plant, grow and harvest our vegetables.
- pfenning:** The name that built the company!
- organic:** A way of farming that is good for the soil, the environment, the plants, & the people! Grown without the use of chemical pesticides or fertilizers.
- veggies:** Also something Pfenning's has a lot of! These are healthy and delicious food that we grow above and below ground on the farm.
- pfamily:** What we lovingly refer to our entire team as. We are more than co-workers on the farm, we are a pfamily!
